Texturing

Rigging

2D & 3D
Animation

Employment Goal

I am looking to fill a junior to mid level role in the art department. I have trained as a motion graphics designer / animator but I am a highly capable 3D and texture artist as well. Beyond this I am looking to develop my skills in all areas of the production pipeline with a keen interest in pre-production.

Education

SAE Qantm

Sept 2015 - August 2017

Completed a 2 year Bachelor of Arts in animation.

Studied the use of major animation software as well as project management skills and the complete production pipeline.

The Graphic Design School

June 2012 - April 2014

Certificate IV in Graphic Design

Completed a 12 module tutor guided online course that included in-depth study of design theory, colour theory, illustration, typography, logo development, graphic illustration, layout design, photography and package design.

Professional Experience

SKYNA Productions

Perth, Western Australia

August 2018 - Present
